

MiBoxer controller

FUT035W+

The FUT035W+ is a modern LED controller supporting two operating modes: dimming and color temperature adjustment (CCT). It enables wireless lighting control via Wi-Fi, Bluetooth 4.2, and 2.4 GHz remotes. Integrated with the Tuya Smart app and voice assistants like Alexa and Google Home, it offers advanced features such as creating lighting scenes, scheduling, music synchronization, group control, and device sharing with other users.
